

Science Fair

Resources

Elementary: K-5

Print Resources

Buczynski, Sandy

Designing a winning science fair project.

Learn how to design, carry out, and present the results of a science project.

Doudna, Kelly

The Kid's book of simple everyday science

These simple science activities will have young kids searching the house for everyday items to learn about temperature, pressure, water, air, heat, and plants! Each easy and fun activity includes how-to photos, simple instructions, short explanations, and introduces beginning math principles.

Garrdner, Robert

Ace your science project:: series*

Presents several science projects and science theories on many different subjects.

Haduch, Bill

Science Fair success secrets: how to win prizes, have fun and think like a scientist.

This book explains the scientific method and depicts a variety of science fair projects.

Rybolt, Thomas & Mebane, Robert

Environmental science fair projects: revised and expanded using the scientific method

Young scientists will explore the environment—the air, water, soil, pollution, and energy resources. They will also learn about the scientific method in an interesting and fun way.

Tocci, Salvatore

Science Fair success using household products

Engages students in science projects that use everyday items they can find right in their own homes.

VanCleave's Janice

Janice VanCleave's guide to the best science fair projects

This book offers ideas for selecting a topic, doing research, making a display and presenting the project.

Library of Things

Birding Backpack

Includes 4 BINGO games and 5 folding pocket guides (Bugs & Slugs, New York State Birds, Eastern Seashore Life, New York State Wildlife and New York State Trees & Wildflowers).

LightUp Tesla Kit

Learn about coding and circuitry with this snap-together light kit.

Snap Circuits

Experiment with real electricity in this snap circuit kit. Perform 100 experiments using patented snap circuits and components using the easy to follow instructions and descriptions.

Telescopes

An easy-to-use tabletop telescope, packaged in a suitcase along with a number of beginning astronomy books to help you get started with your observations of the heavens.

Science Databases

National Geographic Kids

Explore amazing adventures in science, nature, culture, archaeology, and space with this database for children.

Science Flix

Provides students with a better understanding of science concepts and ideas through hands-on projects, videos, multiple text types, interactive features and more.

Science Online

Features a science fair guide, interactive experiments, diagrams, videos, and eLearning modules on various topics in science.
